Professional Summary

Analytical, innovation-driven Computer Information Systems student with experience leading cross-functional teams and using Excel, Power BI, and Python to clean, model, and present data that drives decision-making. Proven ability to lead consulting-style analyses and translate findings into recommendations for leadership. Passionate about applying data and technology to improve efficiency and outcomes.

Education:

Georgia State University | Atlanta, GA, US | August 2022 - Present

BBA in Computer Information Systems – Digital Innovation

Cumulative GPA of 3.36

President's List Summer 2025; Dean's List Fall 2025 and Spring 2024

Degree Focus - Focused on digital transformation with skills in business process modeling, data analysis, and IT solution design using Tableau, Excel, and Python.

Skills and Projects

Skills and Technologies

- **Data & Analytics:** Excel (Pivot Tables, VLOOKUP/XLOOKUP), Power BI, SQL, Python, Forecasting & Regression Modeling
- **Operations & Strategy:** Process Optimization, Workflow Design, IT Strategy & Solution Design, Risk Assessment, Agile/Scrum
- **Leadership & Delivery:** Project Management, Smartsheet, UX Thinking, Team Leadership, Microsoft Office

Projects

- **Dignified Days Business Case:** Led a 5-person consulting team to build an NPV analysis and weighted-scoring framework to evaluate three alternatives, recommending an AI-powered IVR/SMS solution projected to cut CSR call volume 40% and reduce headcount by 4.
- **MADD Marketing: Diaz Brothers Annual Marketing Plan:** Led a 5-person team to build a full annual marketing plan for a real local restaurant, including a SWOT analysis, 4 P's audit, and a phased 12-month roadmap on a \$600–\$1,000/month budget.
- **Colombia Sustainability ETI Research:** Led a cross-university, internationally distributed team researching two emerging sustainability technologies and their business, policy, and community impact in Colombia, earning GSU's International Virtual Exchange Badge.

Relevant Courses Include: Managing with AI, Introduction to Programming, Business Analysis Management, Managing People in Organizations

Work Experience

Norfolk Southern | Atlanta, GA; Business Operations Optimization Intern **01/2026 – 04/2026**

- Designed and delivered executive-level attendance performance reports using Excel and Power BI to inform workforce management decisions; documented and restructured operational workflows to improve tracking and reporting.
- Optimized attendance data workflows, increasing weekly disciplinary processing capacity by 333% (30 → 130 cases/week) and accelerating corrective action timelines.
- Built Excel data-entry and tracking systems for the attendance team and presented data-driven improvement recommendations to company leadership.

Summit Coffee | Atlanta, GA; Assistant Manager; Barista **06/2025-Present**

- Support daily shop operations as Assistant Manager, leading team members, managing inventory, and building customer relationships in a fast-paced environment.

Chick-fil-A | Atlanta, GA; Cultivate Leadership Intern; Drive-Thru/Efficiency Coordinator **6/2019 – 02/2025**

- Built and managed scheduling for 75+ employees at an \$8M/year location, balancing labor costs, productivity, and task delegation across 6 years of progressive leadership roles.
- Trained and developed team members and upcoming leaders; managed inventory and cost control to minimize waste and maintain regulatory compliance.
- Identified operational inefficiencies and implemented process improvements to increase productivity and revenue, while ensuring clear communication and reporting across teams.
